

Plotting multiple Part-FSC curves from the .res files

Tue, 2017-09-26 09:05 — ashokem

Hi Frealign Developers,

I wish to plot the part-FSC curves for 30 cycles together to see the progress of my 3D-reconstruction. Could it be done with `frealign_plot_fsc` command? I could only get plots for individual cycles using the same.

Any advice will be highly appreciated.
Thanks in advance.
